MAXIPAK

IMPROVING AUTOMATION

Saving Time, Reducing Costs, and Boosting Efficiency.

MaxiPak LLC is a key player in designing and producing high-speed, cost-effective pharmaceutical packaging solutions for various healthcare settings. Our comprehensive product line includes primary and secondary packaging, unit dose packaging machines for solid oral medications. We also offer a user-friendly medical device software for barcode and label design, helping to organize and reduce medication errors.

MaxiPak's solutions save time, reduce costs, and boost efficiency in pharmacies. By streamlining the picking, packaging, and dispensing processes, we enable staff to focus on patient care, improving workflow and service quality. Our system also enhances patient safety by ensuring accurate prescriptions, driving higher productivity while delivering optimal care globally.

The Packin Station

The Packin Station is 30% to 50% faster than tabletop strip packers, cutting costs and labor, and 40% more affordable than automatic strip packers, with supply contracts requiring no capital investment.

It features multicolor printing, fills 4-5 times faster

for both acute and long-term care. Designed for minimal service, it reduces downtime and costly repairs. Easy to operate, the Packin Station offers the best value as the lowest-cost automated unit-dose packaging system.
